

Learning Science: Motivation

Dialog

Hey teacher! Imagine that this is your classroom.

Dialog

You're confident that your famous solar system model project is an exciting activity.

Dialog

Who doesn't love mathematical models and outer space? But some students just aren't motivated this year -

Action Notes

Pan right, showing students excited about the project

Dialog

Who doesn't love mathematical models and outer space? But some students just aren't motivated this year -

Dialog

for example, Parker doesn't seem motivated to complete her model at all.

Action Notes

End pan on Parker, who's isolated and has no interest in the project

Dialog

for example, Parker doesn't seem motivated to complete her model at all.

Action Notes

Slow pan in on Parker

Dialog

Motivation is so unique to every learner. You know that Parker is passionate about art, coding, and is an avid reader -

Action Notes

A computer, pot, and books should fall in from top screen

Dialog

Motivation is so unique to every learner. You know that Parker is passionate about art, coding, and is an avid reader -

Dialog

Motivation is so unique to every learner. You know that Parker is passionate about art, coding, and is an avid reader –

Action Notes

Balls on desk, roll off screen

Dialog

Motivation is so unique to every learner. You know that Parker is passionate about art, coding, and is an avid reader –

Dialog

Motivation is so unique to every learner. You know that Parker is passionate about art, coding, and is an avid reader -

Action Notes

Parker grabs the computer, and starts typing

Dialog

Motivation is so unique to every learner. You know that Parker is passionate about art, coding, and is an avid reader –

Dialog

she just isn't motivated by this task. What can you do to help her?

Action Notes

Computer, pot, and books poof away in a cloud of smoke

Dialog

she just isn't motivated by this task. What can you do to help her?

Action Notes

Balls reappear on desk

Motivation

Intrinsic

Extrinsic

Dialog

Motivation is generally understood as intrinsic or extrinsic.

Motivation

Intrinsic

Extrinsic

Dialog

Intrinsic motivation is what teachers love to see in action – it comes from deep feelings of interest in an activity.

Motivation

Intrinsic

Extrinsic

Dialog

Intrinsic motivation is what teachers love to see in action – it comes from deep feelings of interest in an activity.

Intrinsic

Intrinsic

Dialog

When we're completely absorbed in a challenging but accomplishable task that we've chosen to do, psychologists call that state "flow." Nice, Parker - look at you go!

Action Notes

There should be some spinning movement on the pottery wheel

Motivation

/

Intrinsic

Extrinsic

Motivation

Intrinsic

Extrinsic

Dialog

On the other hand, extrinsic motivation comes from an externally imposed need.

Extrinsic

Extrinsic

Dialog

These are the tasks that we do not because we're deeply interested in them, but simply because we have to.

Action Notes

Parker scribbling on their homework

Dialog

As an educator, you might feel pressure to inspire intrinsic motivation in every student, all the time. But while it's important to foster that spark in students when you see it

Action Notes

Inspiring motivations items flow in from right screen

Dialog

As an educator, you might feel pressure to inspire intrinsic motivation in every student, all the time. But while it's important to foster that spark in students when you see it

Dialog

As an educator, you might feel pressure to inspire intrinsic motivation in every student, all the time. But while it's important to foster that spark in students when you see it

Dialog

As an educator, you might feel pressure to inspire intrinsic motivation in every student, all the time. But while it's important to foster that spark in students when you see it

Dialog

As an educator, you might feel pressure to inspire intrinsic motivation in every student, all the time. But while it's important to foster that spark in students when you see it

Dialog

it's just as important to help them learn to accomplish a task when the primary motivation is extrinsic.

Action Notes

Inspiration motivation objects disappears

Dialog

it's just as important to help them learn to accomplish a task when the primary motivation is extrinsic.

Action Notes

Extrinsic items in boxes fall from top screen, and stack on top of each other

Dialog

it's just as important to help them learn to accomplish a task when the primary motivation is extrinsic.

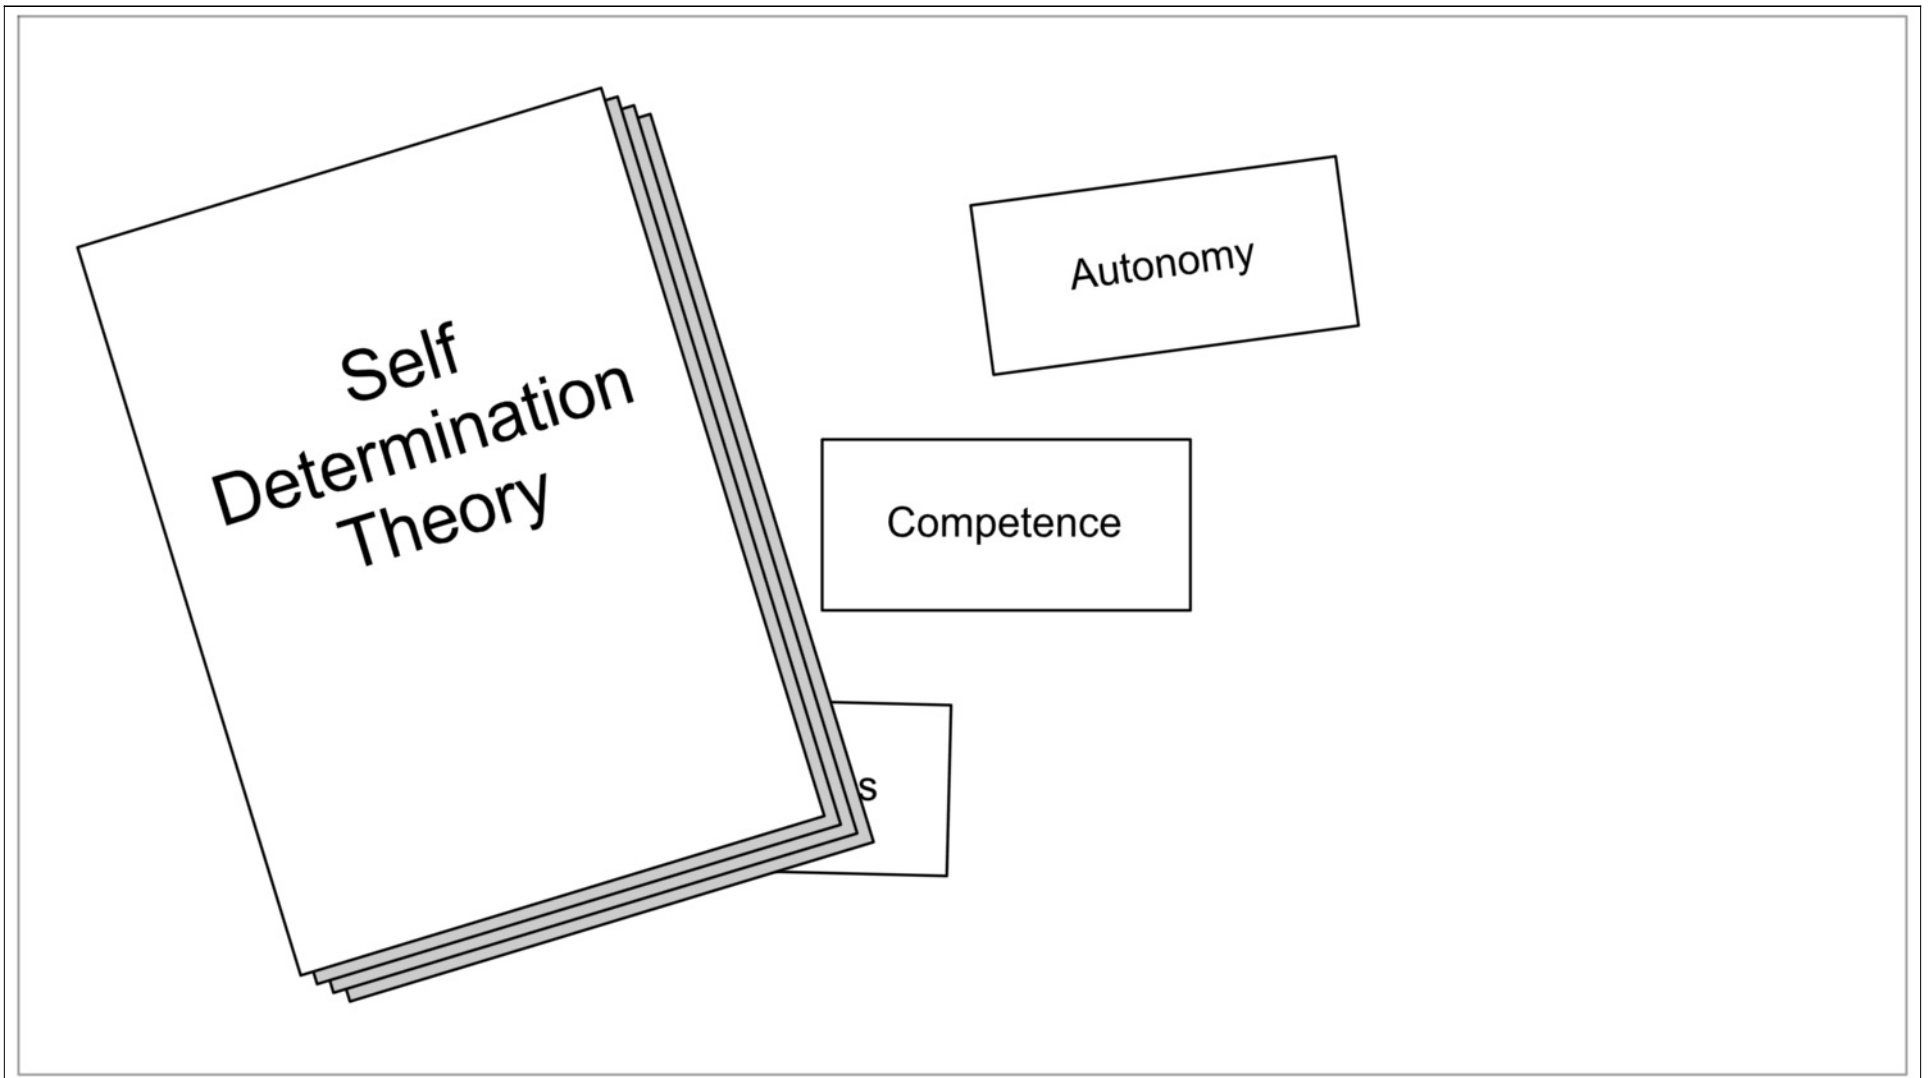

Dialog

According to research in psychology and cognitive science,

Dialog

Self Determination Theory can help Parker find the motivation she needs to complete and learn from her solar system model.

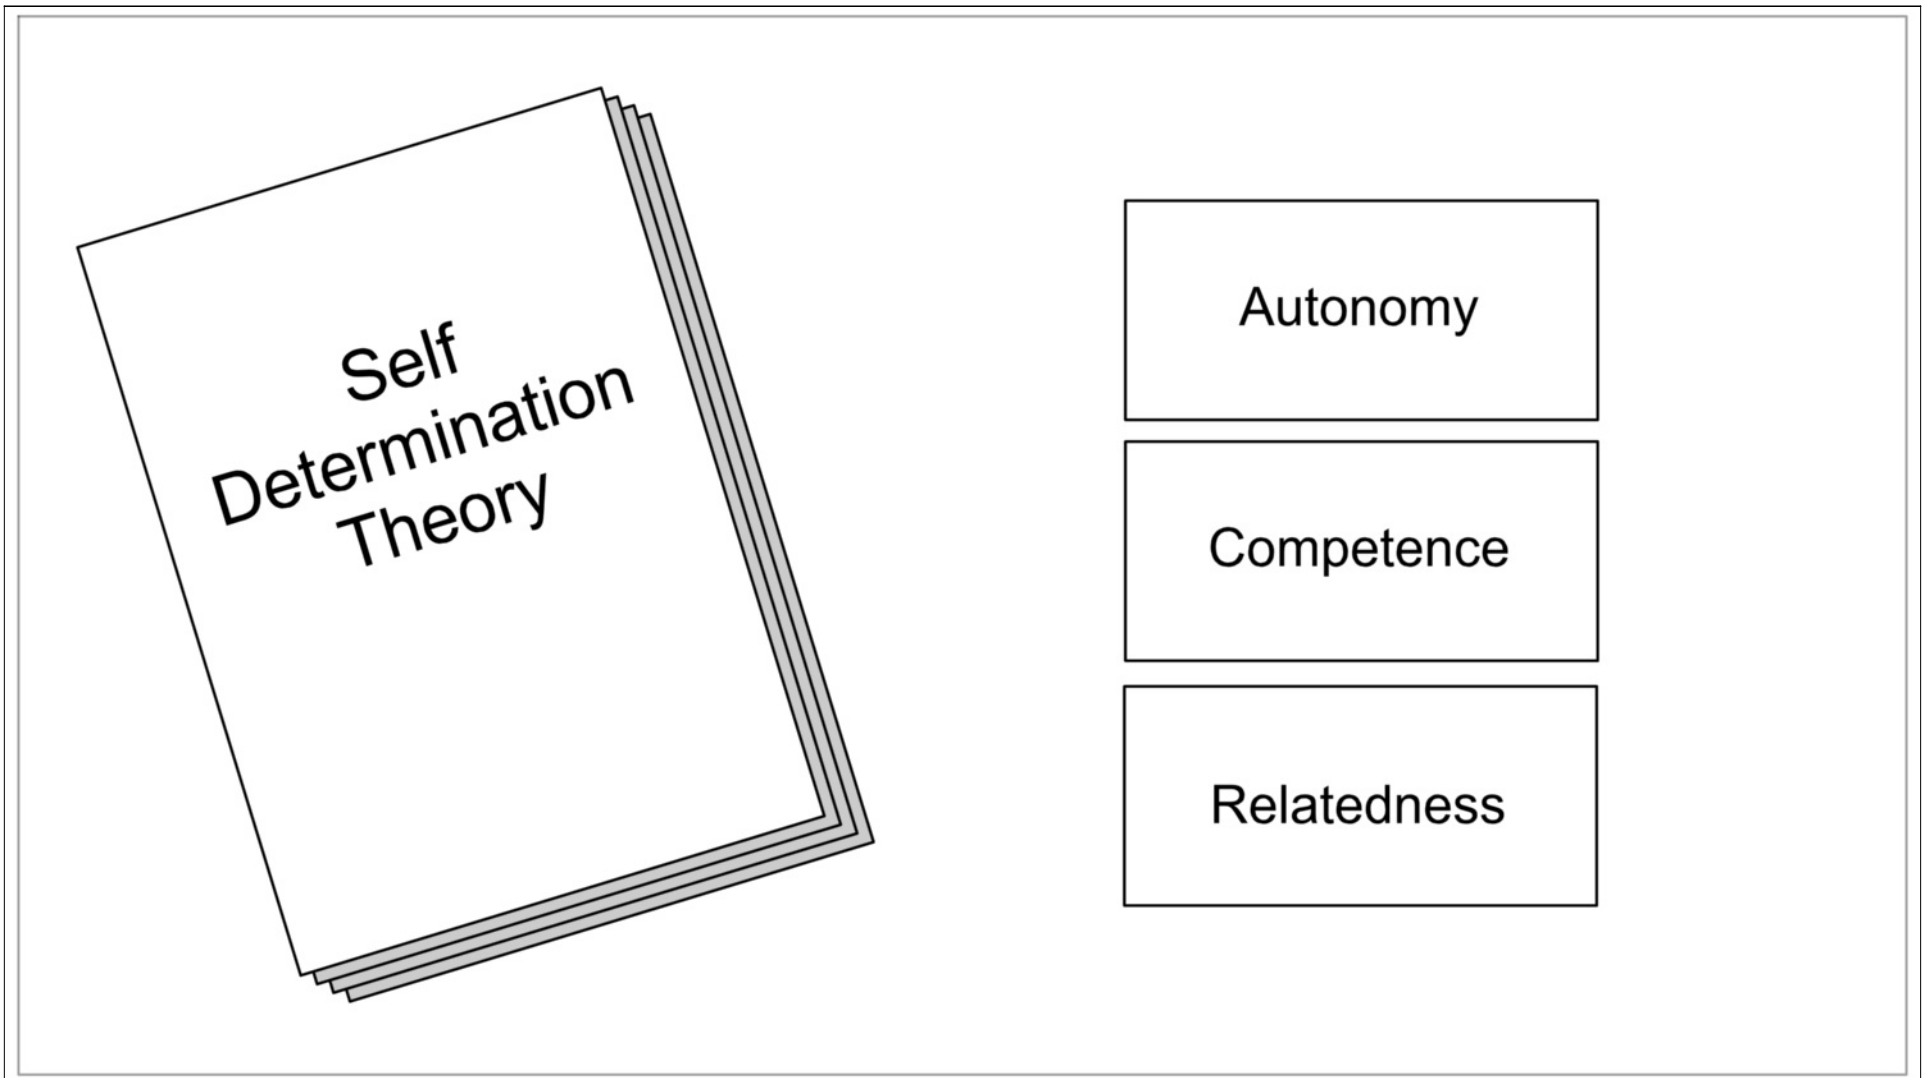

Dialog

Self Determination Theory states that when three important needs are met, students are better positioned to complete extrinsically motivated tasks.

Action Notes

3 note cards come out of the files

Dialog

Self Determination Theory states that when three important needs are met, students are better positioned to complete extrinsically motivated tasks.

Autonomy

Deterministic
Theory

Relatedness

Autonomy

Autonomy

Dialog

The first need is autonomy, or choice. Give Parker options for how to explore key concepts and demonstrate her knowledge.

Action Notes

Parker working in a 3D program

Action Notes

Competence block slides in from the right

Competence

Dialog

The second is competence. Give Parker the tools to exercise a growth mindset as she takes on the task and help her understand why the skills she's building are so important.

Action Notes

Flowers grow and bloom above Parker's head

Competence

Dialog

The second is competence. Give Parker the tools to exercise a growth mindset as she takes on the task and help her understand why the skills she's building are so important.

Action Notes

Relatedness block slides in from the right

Relatedness

Dialog

The third is relatedness, or a sense of belonging. Give Parker plenty of opportunities to collaborate and share ideas with her peers, or even bring her work into a real-world context!

Relatedness

Dialog

The third is relatedness, or a sense of belonging. Give Parker plenty of opportunities to collaborate and share ideas with her peers, or even bring her work into a real-world context!

Relatedness

Dialog

The third is relatedness, or a sense of belonging. Give Parker plenty of opportunities to collaborate and share ideas with her peers, or even bring her work into a real-world context!

Action Notes

Science show display

Dialog

When these needs are met, Parker will feel ownership of her learning, or agency. Even if she doesn't become the next woman on the moon, the content knowledge and skills you've fostered are sure to carry her on the path to achieving her dreams.

Action Notes

There should be some spinning movement on the pottery wheel

Dialog

When these needs are met, Parker will feel ownership of her learning, or agency. Even if she doesn't become the next woman on the moon, the content knowledge and skills you've fostered are sure to carry her on the path to achieving her dreams.

Action Notes

Parker creates a sun

Dialog

When these needs are met, Parker will feel ownership of her learning, or agency. Even if she doesn't become the next woman on the moon, the content knowledge and skills you've fostered are sure to carry her on the path to achieving her dreams.

Action Notes

Sun is placed down on a table

Dialog

When these needs are met, Parker will feel ownership of her learning, or agency. Even if she doesn't become the next woman on the moon, the content knowledge and skills you've fostered are sure to carry her on the path to achieving her dreams.

Action Notes

Slow pan out to see all the planets

Dialog

When these needs are met, Parker will feel ownership of her learning, or agency. Even if she doesn't become the next woman on the moon, the content knowledge and skills you've fostered are sure to carry her on the path to achieving her dreams.
